

CIEN™ ECO ROLO INKS

PRODUCT APPLICATION

CIEN™ Eco Rolo inks have been developed to meet the needs of Roland wide format printers that use the Eco-Sol Max™ inks. They perform like true-solvent inks but are formulated with environmentally friendly ingredients that are suitable for use in small shop environments. These inks will produce a highly saturated and vivid color gamut.

PRODUCT FEATURES AND BENEFITS

- *CIEN™ Eco Rolo ink cartridges are 'Plug & Play'. Simply insert the cartridges, perform '3 medium cleans' and start running the printer¹.*
- *Inks are available in 6 colors in cartridges and bulk packaging.*
- *Excellent outdoor durability, equal to Original Equipment Manufacturers (OEM)².*
- *CIEN™ Eco Rolo inks offer a choice to print at low or room temperature (we recommend 25-30C). This will help eliminate 'buckling' on all media and also help eliminate 'head strike' issues due to overheating the media. This attribute is more effective when printing banners.*
- *Ink shades are similar to the OEM inks; changes to printer settings or color profiles may not be required³.*
- *CIEN™ Eco Rolo inks utilize state of the art nano-filtration technology during the manufacturing process, eliminating plugging of the cartridges.*
- *CIEN™ Eco Rolo inks will perform better and are less expensive when compared to OEM.*

¹If you are using 3rd party inks, please call us.

²Inks provide 1-3 years outdoor durability depending on the substrate. This can be extended up to 5 years by coating with a suitable clear or by film laminating.

³We have an agreement with X-Rite. If you need to generate color profiles for your proofing equipment, ask our sales team for assistance.

Disclaimer: The technical information presented on our data sheets is correct to the best of our knowledge. We recommend the product be tested before application. Final determination for the performance is the sole responsibility of the user. The data presented is not to be interpreted as a warranty or guarantee as conditions of application could affect performance.
