## PANTONE® WHS FLAGSHIP INKS

### PRODUCT APPLICATION

---

Pantone® WHS Flagship blending inks are designed for most general printing applications. This series meets general requirements for a wide variety of web heatset applications in general commercial and publication printing. They are recommended for most coated and higher grade uncoated papers.

### PRODUCT FEATURES AND BENEFITS

---

- *Pantone WHS Flagship inks produce excellent gloss for most applications.*
- *This series provides good rub resistance on a wide variety of stocks.*
- *Available in a full range of pigmentation for matching most colors.*
- *The blending line has been formulated as a mid-tack series to allow flexibility in selection of color rotation on press.*

### TECHNICAL INFORMATION

---

Pantone WHS Flagship inks are packaged in drums and kits. Other packaging available upon request.

The WHS Flagship inks are not recommended for in-line or off-line UV coating applications.

*Disclaimer: The technical information presented on our data sheets is correct to the best of our knowledge. Due to variations in stocks and other variables in the printing process beyond the control of the ink maker, we recommend the product be tested before application. Final determination for the performance is the sole responsibility of the user. The data presented is not to be interpreted as a warranty or guarantee as conditions of application could affect performance.*
