DIGITAL INKS

HECTA™ AQUA INKS

PRODUCT APPLICATION

HECTA™ Aqua inks have been developed to meet the needs of HP Designjet® 5500, 5000 and Epson® Stylus PRO 10600, 9800, 9880, 9600, 7800, 7600, 4800, 4880 and 4000. UV stable pigmented and dye inks are available for the HP® 5500 and HP® 5000 series. Our replacement inks are made with 'Self Dispersion Technology' - no more worries about head clogging. You can expect an increase in jet reliability, resulting in higher productivity. These inks will produce a highly saturated and vivid color gamut.

PRODUCT FEATURES AND BENEFITS

- *HECTA™ Aqua ink cartridges are 'Plug & Play'. Simply insert the cartridges, perform '3 medium cleans' and start running the printer¹.*
- *Inks are available for all Original Equipment Manufacturers (OEM) colors in cartridges and bulk packaging.*
- *Excellent outdoor durability, equal to OEM product².*
- *These inks offer an exceptionally wide color gamut and provide excellent smudge and smear resistance.*
- *Ink shades are similar to the OEM inks; changes to printer settings or color profiles may not be required.*
- *HECTA™ Aqua inks will perform better and are less expensive when compared to OEM inks.*

¹If you are using 3rd party inks, please call us.

²Inks provide up to one year outdoor durability depending on the substrate. This can be extended further by coating with a suitable clear or by film laminating.

Disclaimer: The technical information presented on our data sheets is correct to the best of our knowledge. We recommend the product be tested before application. Final determination for the performance is the sole responsibility of the user. The data presented is not to be interpreted as a warranty or guarantee as conditions of application could affect performance.
